## About This Content

The Zags is a tanker wagon used for transporting gas over a long distance. These gases can be natural Gas or any other pressurised substance.

The Z means it is a metal container for Gases or Liquids, the A means it has 4 axles, the G means the load is compressed and the S means it can run up to 100Km/h

## Features:

- 3 liveries
- Loaded and Unloaded versions

Feedback

Assistant information

Thomas Robinson (CHI): There's much to like about this.

St Louis are especially searching for a solid right wing, a goalie prospect, a prospective right winger and a blueline prospect. In general, they are looking to add veteran presence to their lineup.

The league salary cap is currently \$71,400,000 p/y
